

## Energy Medicine Squared

Learn healing techniques for yourself and others using Expanded-Field Reiki, Hemi-Sync<sup>®</sup>, SAM<sup>™</sup> and Biofield Imaging!

Join Dr. Brian Dailey MD, a well-known American Physician and Monroe Institute Advisory Board Member and Allyn Evans, a Monroe Institute Residential Trainer and gifted healer for their **Energy Medicine Squared** program.

**Upon completion, you will obtain the Master Reiki certification.** During this 5-day energy workshop, you will increase your skills in the use of healing techniques. If you have never perceived subtle energies before, this training "will open that door for you!" If you are already a healer (even a Master Reiki experienced), you'll make significant strides in your abilities while learning additional tools.

You will learn how to combine and integrate different practices including crystal therapy, chakra-clearing techniques, and exercises based on Hemi-Sync and SAM technology to influence a person's bioenergetic field and healing.

In this 5-day program, Dr. Brian Dailey and Allyn Evans will show you color images and video in real time of the different energy fields emanating from your body. You'll be filmed using the biofield imaging software and you'll get electronic copies! You will see in real time the direct effects of the different healing techniques learned and practiced helping you to not only believe something happened, but to know that something happened. This knowledge remains with you, even after you leave!

*Look at the energy flowing in action, thanks to the bioenergetic imaging!*

Every human being has the innate ability to heal himself and others, but many people do not know they have these abilities or limit their abilities. This program helps people unlock and bring out their potential through the use of sophisticated energy techniques along with advanced technologies to expand their energy fields.

Join **ENERGY MEDICINE** in Rovigo, Italy, from June, 27 to July, 1 at [Tenuta Castel Veneze](#) and amplify your ability to bring healing to you and to others!

**Sign Up now!**

**Energy Medicine has been developed based on the 30+ years of Dr. Dailey's patient care in conventional settings. Over the years, he effectively and successfully combine conventional medical treatments with energetic techniques and the sound technology of binaural beats.**

Dr. Brian Dailey says:

"It is open to all those interested in learning new ways to improve health and bring healing: doctors, therapists, health workers, holistic and energy workers, other health and healing professionals. It is also open to individuals who want to learn more or have a desire to gain more tools to use in their own well-being and healing. No experience required!"

### **Who can attend?**

All those who want to activate and expand their healing skills for themselves and others.

Caregivers: who takes care and assists another person on a healing path.

Health Professionals: doctors, medical specialists, professional nurses, health workers, holistic and healing therapist; anyone interested in the knowledge and use of sound and energy to promote healing.

### **What you'll learn:**

- The science behind energy healing (Torsion Fields)
- How a healer's energy field interacts with a client's field
- What Reiki attunements are and why they work—even on animals!
- How to properly administer Reiki healing in person and at a distance
- How to balance chakras and energy systems
- How to combine Reiki with binaural beats and gamma waves to speed healing
- Why crystals affect human energy fields and how to use them
- How to identify and clear negative energies

### **Fee and discounts**

Regular fee is € 1200, with mandatory deposit of € 400; it includes the program participation, the material for the exercises, electronic copies of biofield images, access to research and resources, certificate of participation and Reiki I, II and Master certifications.
